

JOHN'S JOURNAL

Prayer Letter of John Starke

September 2010

Money Down the Drain

Have you ever had one of those days where nothing seemed to go right? Well, I had about three weeks of "those days". It all started when I noticed a crack in the shower pan of my shower. I bought a replacement and was all set to put it in (with the help of a neighbor) but it was not a good fit, so off I went to find a replacement. It took a while but I did find a better fit, better quality and a better price too.

We replaced the pan only to find out the drains didn't line up and, after solving that problem discovered a leaky washer that needed replacing. Would you believe trying to find the washer took almost as much time and effort as replacing the shower pan? Meanwhile I was taking my showers at ETS and getting more and more frustrated.

Finally after getting those problems solved I discovered a leaking shower head connection which meant I had to cut a hole in the wall to tighten the fitting that had come loose and would have caused even more problems in the future.

I am reminded that even though we try to fix ourselves on the outside that God knows the secrets that are hidden behind the walls. Thank you for investing your time, prayers and support to partner with me in this ministry. It is my prayer that you will see your investment as money well spent.
