Moving A Mountain of Clothing.....

Almost everyone who has volunteered at ETS has been amazed at our Mount Clothesmore. This is the "mountain of clothes" that grows or diminishes depending on needs around the world. Believe it or not we have actually seen the floor at times! We process used clothing and hand sort every piece into winter or summer clothing. We get our clothing from donations and thrift shops.

After the sorting process is completed the clothing is put into large rolling carts and put into boxes that are weighed, taped and marked on the outside of the box. We keep a computer record of the number of boxes of winter and summer clothing we have in storage. When a ministry calls us asking for clothes we know how many boxes need to be packed before the container comes.

When we have a request for a clothing container the word goes out to our volunteers. We recently completed a container for Haiti and were amazed and very grateful for the 23 volunteers that showed up to help on a cold winter Thursday afternoon. The container was completed in less than 3 hours and prayed over by the crew that loaded its contents.

I'd call these volunteers "Mountain Movers" that made a difference to people they will never meet. Thank you for your prayers and support that make it possible for me to continue to work at Equipping The Saints.
