MORE OF THE STORY!

SUDAN:

Last week Ben Cohen returned to the States after his most recent trip to the Sudan. We had shared with you our connection with this ministry and the excitement we feel as we see God at work in this needy land. Now here is another chapter in the story. We were looking forward to an update on all that has happened in the past few months. His full report is yet to come, but here is the latest account to his supporters.

"Greetings in the Precious Name of Our Lord and Savior Jesus Christ!

We give thanks to the Lord for His protection and provision during our team's most recent mission to the Nuba Mountains of Sudan. God's Spirit and His Word continue to open incredible doors in a land the Bible calls Cush.

*In May of 2017, we asked the Lord to provide the funding for 10,000 Bibles to support our brothers and sisters on the frontlines in Sudan. Since then, **God has allowed us to take over 80,000 Bibles and 90,000 Story of Jesus picture books into Sudan** which have been distributed in each of the 262 "bush schools" where more than 70,000 students are now being taught how to read using the Word of God. For probably 99% of these students, the Bibles they now have will be the only book they ever own.*

We are so thankful for each of you that earnestly pray and fast and give financially to help us continue on in this work. Your encouragement means so much to us.

Lord willing, we will be able to send out several full, detailed reports early next week."

We love to hear these reports and are looking forward to getting the details when they arrive. Now we pray that as these Bibles are used in the schools and homes of the students that a great harvest of transformed lives will be the result.

We can only imagine the impact the use of God's Word can have on this society and country. Do pray with us as we continue to facilitate this strategic ministry and make available other tools that will benefit the work there.

Bless you, dear friends, for participating with us in helping ministries such as this.
